IMPORTANT INFORMATION

- INCLUDE TASK ASSIGNMENTS OR MOVEMENTS, REFLECTION ON THE DAY'S NEW LEARNING, ACCOMPLISHMENT, CHALLENGES FACED AND HOW YOU RESPONDED, OBSERVATIONS AND RECOMMENDATIONS ON THE IMPROVEMENT OF SYSTEMS / OPERATION / MANAGEMENT, ETC.
- SCANNED COPIES OF THIS FORM SHALL BE SUBMITTED ON A WEEKLY BASIS THROUGH APPROVED LMS.
- HARD COPIES OF THIS FORM SHOULD BE COMPILED AS PART OF THE STUDENT'S PORTFOLIO.

DATE	April 29, 2026 – April 30, 2026	AREA ASSIGNMENT	ICTO
TASK	Internship Onboarding & Project Familiarization	SHIFT/TIME	8:00AM – 5:00PM

Software Development & Creative Support

April 29 – Reported to the Information and Communications Technology Office (ICTO) for the official start of my internship. completed workstation setup, joined the assigned hybrid Software Development & Creative Support team, and was introduced to the department's ongoing government and educational software projects.

April 30 – Familiarized myself with the team's development environment by setting up the required tools, including Visual Studio Code, GitHub, and the CodeIgniter 4 framework. Reviewed the initial project requirements for the Biñan Access Card System and the workflow for the K-12 Educational Application.

Professional Development & Other ICT-Related Activities

April 29 – Participated in discussions regarding the department's development workflow, communication process, and expected responsibilities throughout the internship.

April 30 – Observed the collaborative workflow between developers and creative designers, gaining an understanding of the project's version control practices, asset management process, and overall software development lifecycle.

DATE	May 04, 2026 – May 08, 2026	AREA ASSIGNMENT	ICTO
TASK	Project Planning & Dev Environment Familiarization	SHIFT/TIME	8:00AM – 5:00PM

Software Development & Creative Support

May 04 – Participated in project discussions to understand the objectives and proposed modules of the Biñan Access Card System, including the Dashboard, Manage Records, Sector Management, Services & Programs, Category Management, and Account Management modules.

May 05 – Explored the project structure using CodeIgniter 4 and Visual Studio Code, while becoming familiar with the team's coding standards, folder organization, and development workflow through the shared GitHub repository.

May 06 – Assisted in reviewing the proposed user interface layouts and navigation flow of the Biñan Access Card System, providing observations to improve usability and maintain a consistent design.

May 07 – Reviewed the existing Grade 7 English (Fourth Quarter) educational application together with its reference assets to understand the required illustration style, gameplay format, and asset specifications.

May 08 – Prepared the creative workspace by organizing design references, project folders, and asset templates that would be used for producing the upcoming Grade 7 learning materials.

Professional Development & Other ICT-Related Activities

May 06 – Participated in a collaborative team discussion regarding the department's software development workflow, version control practices using GitHub, and coordination between the development and creative teams.

DATE	May 11, 2026 – May 15, 2026	AREA ASSIGNMENT	ICTO
TASK	Module Planning & G7 Asset Development	SHIFT/TIME	8:00AM – 5:00PM

Software Development & Creative Support

May 11 – Assisted in developing the Dashboard module of the Biñan Access Card System by reviewing the interface layout and implementing minor UI adjustments using CodeIgniter 4 and Visual Studio Code.

May 12 – Continued working on the Manage Records module by reviewing the interface structure and collaborating with the team through GitHub to monitor project updates and revisions

May 13 – Began creating visual assets for Grade 7 English – Fourth Quarter (Topics 1-2) based on the department's reference materials while following the established illustration style and asset specifications.

May 14 – Continued producing assets for Grade 7 (Topics 3-4) and organized the completed files for uploading to the project's shared Google Drive.

May 15 – Uploaded the completed assets for Topics 1-4 to Google Drive, received initial feedback from the supervisor, and made the necessary revisions for approval before developer integration.

Professional Development & Other ICT-Related Activities

May 14 – Participated in the team's weekly progress meeting to discuss completed development tasks, asset revisions, and the upcoming work schedule for both software development and creative production.

DATE	May 18, 2026 – May 22, 2026	AREA ASSIGNMENT	ICTO
TASK	Module Development & G7 Asset Production	SHIFT/TIME	8:00AM – 5:00PM

Software Development & Creative Support

May 18 – Continued assisting in the development of the Manage Records module by reviewing interface components, validating form layouts, and implementing minor UI refinements using CodeIgniter 4 in Visual Studio Code.

May 19 – Collaborated with the team in organizing the Sector Management, Services & Programs, and Category Management modules while synchronizing project updates through GitHub.

May 20 – Created visual assets for Grade 7 English – Fourth Quarter (Topics 5–6) following the approved reference materials and existing application design.

May 21 – Developed the remaining assets for Grade 7 (Topic 7) and uploaded the completed outputs to the shared Google Drive for supervisor evaluation.

May 22 – Applied the supervisor's requested revisions to the submitted assets and finalized the approved files for turnover to the development team for implementation.

Professional Development & Other ICT-Related Activities

May 21 – Participated in the weekly project review meeting to discuss module progress, creative deliverables, and development priorities for the following week.

DATE	May 25, 2026 – May 29, 2026	AREA ASSIGNMENT	ICTO
TASK	Software Development & Creative Support	SHIFT/TIME	8:00AM – 5:00PM

Software Development & Creative Support

May 25 – Continued assisting in the development of the Biñan Access Card System by reviewing the Dashboard and Manage Records modules using Codelgniter 4 in Visual Studio Code, while familiarizing myself with the project's GitHub repository and development workflow.

May 26 – Assisted in organizing interface components and reviewing the implementation of the Sector Management, Services & Programs, and Category Management modules. Collaborated with the team through GitHub to keep track of project updates and revisions.

May 27 – No internship activities (*Eid'l Adha Feast of Sacrifice – Holiday*).

May 28 – Created the visual assets for Grade 7 English – Fourth Quarter (Topics 7–8) based on the department's reference materials. Uploaded the completed outputs to the project's shared Google Drive for supervisor review.

May 29 – Completed the assets for Grade 7 (Topics 9–10). Incorporated the supervisor's revision requests, finalized the approved outputs, and prepared them for endorsement to the development team for implementation.

Professional Development & Other ICT-Related Activities

May 26 – Participated in the team's weekly progress discussion to review completed tasks, receive development updates, and discuss the next phase of both software development and multimedia production.

DATE	June 01, 2026 – June 05, 2026	AREA ASSIGNMENT	ICTO
TASK	Grade 5 Asset Dev & Module Enhancement	SHIFT/TIME	8:00AM – 5:00PM

Software Development & Creative Support

June 01 – Continued assisting in the development of the Account Management and Audit Trails modules by reviewing interface components and implementing minor UI refinements using CodeIgniter 4 in Visual Studio Code.

June 02 – Collaborated with the team in reviewing the functionality of the completed core modules and synchronized development updates through the project's GitHub repository.

June 03 – Began creating visual assets for Grade 5 English – Fourth Quarter (Topics 1–2) based on the department's based on the department's existing reference materials and design standards.

June 04 – Continued producing illustrations and interface assets for Grade 5 (Topics 3–4) and uploaded the completed outputs to the shared Google Drive for supervisor evaluation.

June 05 – Applied the requested revisions from the supervisor, finalized the approved assets, and prepared them for turnover to the development team for implementation.

Technical Documentation

June 05 – Organized the approved Grade 7 project assets and updated the asset inventory to document completed deliverables prior to developer implementation.

DATE	June 08, 2026 – June 12, 2026	AREA ASSIGNMENT	ICTO
TASK	Core Module Enhancement & Grade 7 Assets	SHIFT/TIME	8:00AM – 5:00PM

Software Development & Creative Support

June 08 – Continued assisting in the development of the Account Management and Audit Trails modules by refining interface components and implementing minor improvements using CodeIgniter 4 in Visual Studio Code.

June 09 – Collaborated with the development team in reviewing module functionality, resolving minor interface issues, and synchronizing updates through the project's GitHub repository.

June 10 – Created visual assets for Grade 5 English – Fourth Quarter (Topics 5–6) following the department's approved design references and asset specifications.

June 11 – Continued developing assets for Grade 5 (Topics 7–8), uploaded the completed outputs to the shared Google Drive, and addressed minor revision requests from the project supervisor.

June 12 – *No internship activities (Independence Day – Holiday)*

Professional Development & Other ICT-Related Activities

June 08 – Participated in the team's weekly progress meeting to review completed modules, discuss creative asset revisions, and plan the remaining project deliverables.

DATE	June 15, 2026 – June 19, 2026	AREA ASSIGNMENT	ICTO
TASK	G5 Asset Completion & Module Finalization	SHIFT/TIME	8:00AM – 5:00PM

Software Development & Creative Support

June 15 – Continued assisting in the enhancement of the Dashboard and Manage Records modules by refining interface components, improving form layouts, and reviewing module functionality using C14 in Visual Studio Code.

June 16 – Collaborated with the development team in reviewing the integration of the completed core modules and synchronized the latest project updates through the shared GitHub repository.

June 17 – Created the remaining visual assets for Grade 5 English – Fourth Quarter (Topics 9–10) following the approved design references and application standards.

June 18 – Uploaded the completed Grade 5 asset package to the project's shared Google Drive, addressed the supervisor's revision requests, and finalized the approved outputs for developer implementation.

June 19 – *No internship activities (Araw ng Kapanganakan ni Dr. Jose P. Rizal – Holiday)*

Technical Documentation

June 18 – Organized the finalized Grade 5 assets, updated the asset inventory, and documented the completed deliverables before endorsing them to the development team for application integration.

DATE	June 22, 2026 – June 26, 2026	AREA ASSIGNMENT	ICTO
TASK	Project Refinement, Asset Revisions & Seminar	SHIFT/TIME	8:00AM – 5:00PM

Software Development & Creative Support

June 22 – Continued assisting in refining the Biñan Access Card System by reviewing interface consistency across the completed modules and implementing minor UI improvements using CodeIgniter 4 in Visual Studio Code.

June 23 – Collaborated with the development team in resolving minor interface issues, organizing project updates through GitHub, and preparing the system for the next development phase.

June 24 – Processed revision requests for the Grade 5 English educational assets based on feedback from the project supervisor and uploaded the updated files to the shared Google Drive for final approval.

June 25 – Participated in the ICT Month: TechTalk 2026, an eight-hour seminar organized by the Information and practices, Communications Technology Office (ICTO), featuring discussions on emerging technologies, software development practices, cybersecurity awareness, and current ICT industry trends.

June 26 – Finalized the approved revisions for the educational application assets and coordinated with the development team to ensure that the latest versions were ready for integration into the system.

Technical Documentation

June 26 – Updated the project documentation by organizing completed deliverables, recording implemented revisions, and preparing progress notes for the completed creative outputs and system enhancements.

DATE	June 29, 2026 – July 03, 2026	AREA ASSIGNMENT	ICTO
TASK	QR Code Verification Development & Testing	SHIFT/TIME	8:00AM – 5:00PM

Software Development & Creative Support

June 29 – Began assisting in the development of the QR Code Verification module for the Biñan Access Card System by reviewing the proposed workflow, scanner interface, and beneficiary validation process using CodeIgniter 4, Visual Studio Code, and GitHub

June 30 – Attended a meeting with the CSWD to discuss the proposed QR Code Verification System. Reviewed the client's manual beneficiary verification process and documented their suggestions and requirements for improving the system's workflow.

July 01 – Assisted in organizing the database structure and validation logic required for QR code transactions, ensuring consistency between beneficiary records and scanned information.

July 02 – Participated in feature testing of the QR Verification module by identifying interface inconsistencies, validating transaction outputs, and reporting observations for further improvements.

July 03 – Applied minor UI refinements based on testing results, reviewed implemented changes with the development team, and synchronized the latest updates through the project's GitHub repository.

Technical Documentation

July 02 – Documented the QR Verification workflow, recorded testing observations, and updated development notes based on the implemented improvements.

Professional Development & Other ICT-Related Activities

July 02 – Participated in the team's weekly progress meeting to review the implementation of the QR Verification module, discuss testing results, and identify remaining tasks prior to deployment.

DATE	July 06, 2026 – July 10, 2026	AREA ASSIGNMENT	ICTO
TASK	QR Module Refinement, Final Testing & Project Turnover	SHIFT/TIME	8:00AM – 5:00PM

Software Development

July 06 – Continued refining the QR Code Verification module by implementing minor interface improvements and reviewing the beneficiary validation process to ensure accurate transaction handling.

July 07 – Assisted in conducting end-to-end testing of the scanner module, verifying QR code transactions, and resolving minor interface and usability issues identified during testing.

July 08 – Collaborated with the development team in reviewing the completed system modules, confirming feature functionality, and synchronizing the latest project updates through the shared GitHub repository.

July 09 – Applied final revisions to both the QR Verification module and previously submitted educational assets based on the remaining feedback from the development team and project supervisor.

July 10 – Assisted in preparing the completed project outputs for turnover, ensuring that the latest source code, approved assets, and project files were properly organized and ready for deployment and future maintenance.

Technical Documentation

July 09 – Updated the final project documentation by recording completed module enhancements, implemented revisions, testing observations, and the status of the delivered outputs.

July 10 – Organized the project files, development notes, and creative deliverables in preparation for project turnover and internship completion.

Preparing progress notes for the completed creative outputs and system enhancements.

Professional Development & ICT-Related Activities

July 10 – Participated in the final project review with the team, reflected on the skills and experience gained throughout the internship, and received feedback regarding my overall performance and contributions.
